Hello and welcome! I am Vinisha, and I will be taking you through this training on the Safety Observation Programme (SOP).
This training will provide you an insight into the process steps involved in conducting Behaviour Based Safety (BBS) through SOP.
The training will take approximately 5 minutes to complete. However, you may pause or exit whenever you wish, and your progress will be recorded.

On completion of this training, you should be able to:

Identify and report behaviours that impact safety

Define behaviours precisely

Apply mechanisms for measuring behaviours

Give feedback and reinforce progress

Click Next to continue.

He is Aarav who recently got promoted as Safety Specialist from Safety Officer. He is going to work on a new project with me.

Click the forward arrow to see our discussion on this project.

1

Hello, Aarav!
Congratulations on your
new post.

2

Thanks, Vinisha!

Let's look at the process flow of the SOP. There are six steps involved in this process.

Click Next to continue.

06/25

Make a Buddy is the first process step in conducting an SOP. In this step, you should:

Choose a buddy
(another employee)
in conducting BBS
observations.

Choose a buddy
who can be a
trained employee or
can be an employee
who is undergoing
OJT for carrying out
BBS round

Choose a buddy
from the same plant
area where BBS
round is to be
conducted or from
other areas too.

Need to carry BBS
round along with
the buddy only to
ensure BBS round is
comprehensive
