Summary

Driven by a deep passion for continuous learning and empowering others, I bring over 15 years of experience in designing and developing impactful learning solutions. As a Learning Experience Designer (LXD) and Senior Instructional Designer, I specialize in creating engaging e-learning, blended, and instructor-led programs grounded in sound instructional principles. My expertise extends to corporate English training, curriculum development, and performance consulting, ensuring learners achieve tangible outcomes.

My foundation in English language and literature, coupled with extensive experience in instructional design, allows me to bridge communication gaps and enhance performance. I excel in developing comprehensive training programs that align with organizational goals, focusing on creating learner-centric experiences. I leverage my skills in e-learning development, content creation, and project leadership to deliver exceptional results through a collaborative approach.

I am committed to sharing knowledge and building collaborative learning environments, utilizing my expertise to make a positive impact on both individuals and organizations

- Develops and executes SAP-focused learning strategies grounded in Human Performance Technology (HPT), aligning content with business goals, product roadmaps, and performance outcomes.
- Designs scalable, diverse, and engaging learning materials—including eLearning, and microlearning—using HPT principles to address performance gaps and support SAP technical roles.
- Creates detailed design documents (e.g., High-Level Design), process flowcharts, and instructional workflows using tools like MS Visio to support SAP procedures and ensure clarity in training execution.
- Partners with SMEs, product managers, and cross-functional teams to ensure technical accuracy, brand consistency, and learner relevance—translating organizational needs into targeted learning interventions.
- Conducts audits, prepares RCA documents, and applies learner data to refine content, improve effectiveness, and maintain instructional standards—all core to HPT's systematic approach to performance improvement.
- Leads end-to-end SAP instructional design projects, manages timelines, and ensures on-time delivery—supporting organizational capability through structured performance solutions.
- Interfaces with clients to gather needs, provide updates, and maintain clear communication throughout SAP training initiatives, ensuring solutions are contextually relevant and results focused.
