

NIRMAAN CLIMATEWORKS FOUNDATION

Content Analysis Climate Finance for Indian Cities

Prepared by:	Vimala Telu, Senior Instructional Designer
Organization:	Nirmaan ClimateWorks Foundation (NCF) — Bengaluru (Fictional)
Target Audience:	Finance Officers and CFOs of Urban Local Bodies (ULBs)
Program Format:	Supporting document for CF-101 instructional design
Duration:	N/A
Version:	v1.0 — July 2025

1. Purpose and Scope

This Content Analysis classifies all learning content for CF-101 by type (Fact, Concept, Procedure, Principle), maps each content area to its primary task, identifies source materials, and recommends appropriate instructional strategies. The classification follows Gagné's learning outcomes taxonomy and informs the instructional strategy decisions documented in the CF-101 Design Document.

Content Type Definitions

- **Fact:** Specific, discrete information that must be recalled accurately (regulatory article numbers, institution names, numerical thresholds).
- **Concept:** A category or principle that organizes related ideas (what a green bond is; what additionality means).
- **Procedure:** A step-by-step sequence for completing a task (completing the SEBI readiness checklist; structuring a blended finance proposal).
- **Principle:** A guideline that governs judgment across varied, novel situations (when to recommend a green bond vs. an MDB loan; how to evaluate project eligibility under uncertainty).

2. Content Analysis by Module

Content Area	Task	Type	Bloom's Level	Recommended Instructional Strategy	Assessment Approach
Global CF mechanisms (GCF, ADB, World Bank, AIIB)	1.1	Fact	L1-L2	Illustrated mechanism card gallery; interactive glossary with Indian city examples	MCQ — source & instrument ID
India domestic CF landscape (NABARD, NDB, MoHUA)	1.2	Fact	L2	Comparative table: domestic vs. international source, eligible use, typical project size	Classification activity
Climate finance instrument types and distinctions	1.3	Concept	L2-L4	Instrument typology visual (see PPT Slide 4); interactive mapping activity: match instrument to project type	Drag-and-drop classification
Urban project eligibility for climate finance	1.4	Principle	L4 Analyze	Decision Tree activity: evaluate 5 urban project descriptions for CF eligibility and instrument match	Case-based MCQ
SEBI Green Bond Circular 2023 — regulatory requirements	2.1	Fact	L2	Annotated document walkthrough in Rise 360; regulatory cross-reference checklist	MCQ on SEBI requirements
ULB credit rating criteria (CRISIL/ICRA)	2.2	Fact / Concept	L2-L4	Credit rating explainer video; case: Nashik Municipal Corporation credit rating journey	Rating decision scenario
Green Bond Readiness Checklist process	2.1-2.3	Procedure	L3 Apply	Step-by-step guided activity: complete checklist for own ULB; mentor reviews output	Checklist completion + sign-off
Structuring green bond financing (escrow, ring-fencing)	2.3-2.4	Procedure	L3	Annotated bond structure diagram; process flow walkthrough; Nashik Storyline simulation	Simulation decision score

ADB, World Bank, AIIB eligibility and instrument terms	3.1	Fact / Concept	L2-L4	MDB comparison matrix (interactive toggle); eligibility decision tree for 3 project types	MCQ + Decision tree activity
MDB project concept note structure and format	3.2	Procedure	L3-L4	Annotated real concept note example; structured template with guided prompts	Draft concept note section
MDB co-financing and counterpart funding requirements	3.3	Principle	L4	Case analysis: three Indian ULBs — which has realistic MDB access and why?	Case-based scenario reflection
Blended finance instruments (guarantees, grants, subordinated debt)	4.1-4.2	Concept	L2-L3	Instrument explainer cards; blended finance structure illustration	MCQ — instrument identification
Designing a blended finance structure (Blended Finance Canvas)	4.2-4.3	Procedure / Principle	L4-L5	Virtual workshop: group design exercise using NCF Blended Finance Canvas; Madurai solar+EV case	Canvas output + workshop debrief
Urban carbon credit opportunities (project types, standards)	5.1	Fact / Concept	L2	Urban carbon opportunity map (visual — see PPT Slide 5); eligibility overview by project type	Eligibility classification quiz
India CCTS for urban projects (BEE, sectors)	5.1-5.2	Fact	L2	Annotated CCTS notification walkthrough; BEE eligible sector list for urban projects	MCQ on CCTS framework
GHG baseline estimation (BEE/IPCC methodology)	4.3	Procedure	L3 Apply	Worked calculation: Indore SWM project (step-by-step with actual BEE emission factors)	Calculation exercise
Carbon finance decision simulation (Kota case)	5.1-5.4	Principle	L4	Storyline 360: 4-node decision simulation, 12 outcome pathways, immediate explanatory feedback	Simulation score $\geq 70\%$
Climate Finance Concept Note — template and standards	4.1-4.4	Procedure	L3	Annotated template with model example; section-by-section quality rubric walkthrough	Concept Note (mentor-assessed)
M&E framework design for CF proposals	4.4	Procedure / Principle	L4–L6	M&E framework template; model example from ADB-funded urban project	M&E section of Concept Note

3. Content Source Analysis

Content Area	Primary Sources	Verification Required
SEBI Green Bond Circular	SEBI circular (January 2023); SEBI website: Green Bond FAQ; NCF Green Bond legal analysis (2024)	SEBI-registered green bond arranger: SME review
India CCTS content	BEE CCTS notification (June 2023); BEE FAQs; Energy Conservation Amendment Act 2022; NCF CCTS tracker	BEE-affiliated SME review; quarterly regulatory update
ADB India instruments	ADB Country Partnership Strategy India 2023–2027; ADB India Urban Climate Finance Toolkit (2023)	ADB India Resident Mission officer review
World Bank India urban lending	World Bank India country program; IBRD Urban Transport and Energy Project documentation	World Bank Urban Development program officer review
GHG baseline methodology	BEE emission factors database; IPCC AR6 Tier 1 defaults; NCF carbon finance worked examples	BEE-affiliated carbon markets SME; cross-check against UNFCCC methodologies
Indian city case studies	Pune Green Bond prospectus (2017); Bhubaneswar ADB project documentation; Indore SWM carbon credits (NCF adapted)	Legal NDA review; de-identification of any client-specific data
