01/51

Learning Objectives

By the end of this module, you will be able to:

- Describe what Informed Consent is
- Apply the Informed Consent principles to obtain the Informed Consent from the right Subject, with the right forms, by the right people, through the right process, at the right time, and with the right documentation
- Define what consenting issues are and what root cause analysis is
- List the factors that could influence the Subject's ability to understand the information in the consent form
- Demonstrate the two key pieces required for Informed Consent documentation
- List the best practices to obtain the Informed Consent

Click the NEXT button to continue.

02/51

Welcome

Hi! I'm James.

Welcome to the Informed Consent Simulation.

03/51

Welcome

Co-moderator, Mrs. Terri

- This learning experience uses scenario-based activities to help you practice making informed decisions.
- When you choose the correct option, you will move forward.
- If you select an incorrect option, you will have another chance to decide. **There is no final exam.**

Key Goal: Provide you with the knowledge and skills required to make you more effective in the Informed Consent Process.

Informed Consent Resources

You can use the Resources section to review the various Guidelines on Informed Consent.

The resources include the International Conference on Harmonization GCP, or ICH GCP Guidelines, as well as some information sheets and Guidelines from the FDA.

Note: You can access with the resource at any point of time while doing the simulation scenarios.

Peterson

Dr. Smith is an experienced Principal Investigator.

05/51

Introduction to Simulation

In this simulation, you will be taking the role of various people involved in Informed Consent such as the Principal and Sub-I or the Clinical Research Coordinator (CRC) or the Monitor/Clinical Research Associate (CRA).

Note: To successfully complete this training, you need to score **minimum 80%** in all acts.

Good Luck!

Click the **NEXT** button to continue.

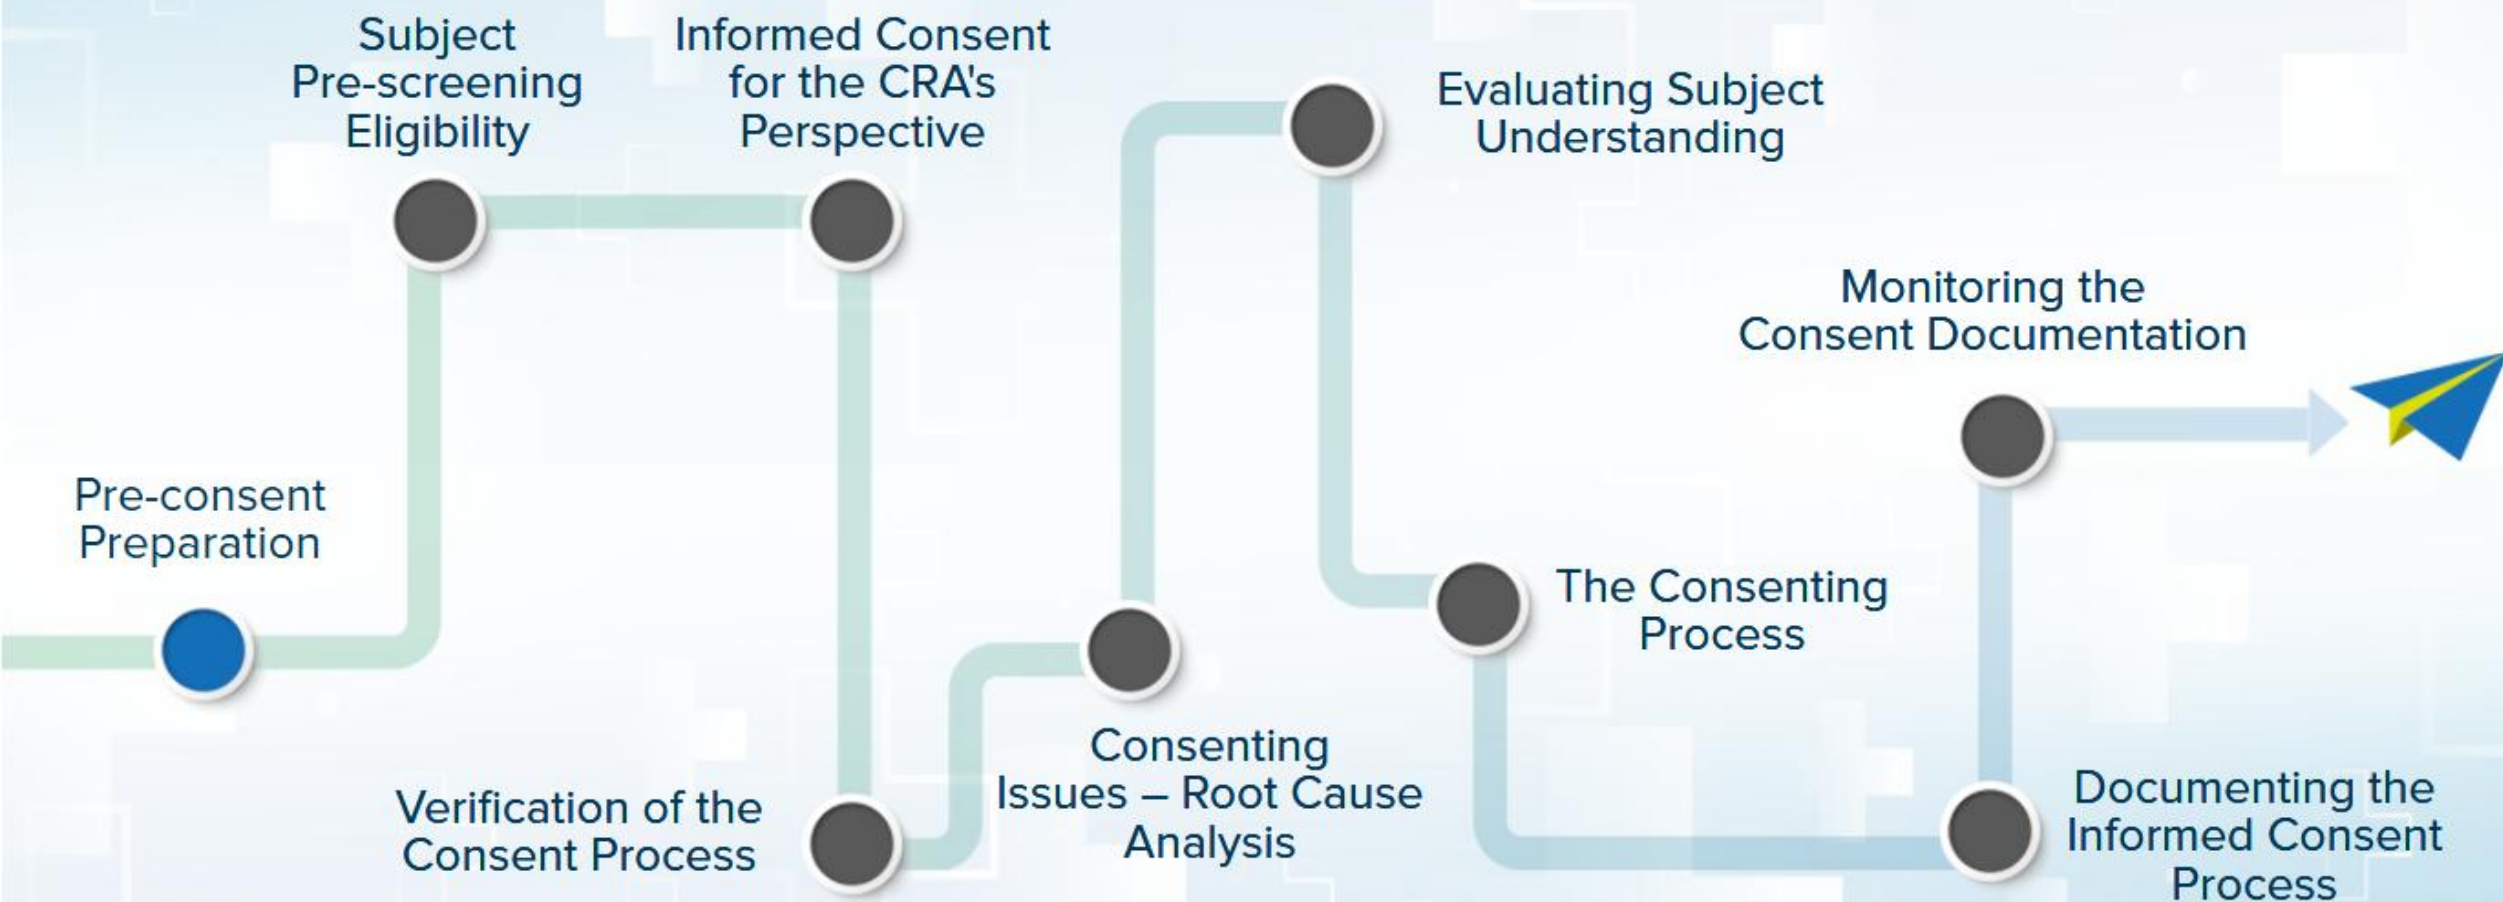

06/51

Introduction to Cases

Click the highlighted case to learn more.

07/51

There are two introductory case studies; each case will provide the scenario and an act for which you need to make the decision.

Pre-consent Preparation - Basic Informed Consent Principles Scenario 1

Case 1

Scenario 1 - Basic Informed Consent Principles

Dr. Smith

It's good to see you again Adam. I understand that you want to discuss your ADHD medication. Tell me what's going on.

Adam

Well, it just doesn't seem to be working. I have tried 3 different medications in the past year and the most recent one is giving me really bad stomach cramps and it just doesn't seem to be helping with my concentration.

Pre-consent Preparation - Basic Informed Consent Principles Scenario 1

Case 1

Scenario 1 - Basic Informed Consent Principles

Susan

Hi Adam. I'm Susan, Dr. Smith's study coordinator. I understand you are interested in being a part of the ADHD research study. Let's see, are you free next Tuesday for a Screening Visit?

09/51

Pre-consent Preparation – Act on Basic Informed Consent Principles

Susan asks Adam if he is available next Tuesday for a screening visit. If you were Adam in this scenario, how would you respond to this?

*Select the correct option and select **SUBMIT**.*

- ☐ A) Sure.
- ☐ B) Don't you need my consent first?
- ☐ C) Can we start today?
- ☐ D) I have some questions that I would like to discuss with Dr. Smith first.

SUBMIT

10/51

Pre-consent Preparation – Act on Basic Informed Consent Principles

Susan asks Adam if he is available next Tuesday for a screening visit. If you were Adam in this scenario, how would you respond to this?

Select the correct option and select SUBMIT.

That's incorrect.

Not exactly. Although this is an OK response, it is unlikely that the you, the subject, already know everything you need to know about the informed consent.

SUBMIT

10/51

Susan asks Adam if he is available next Tuesday for a screening visit. If you were Adam in this scenario, how would you respond to this?

Select the correct option and select SUBMIT.

Great! You have chosen the correct option.

As the subject in this scenario, you have a right to read the Informed Consent in detail and have all your questions answered before making any decisions.

SUBMIT

Introductory Scenarios Summary

Informed Consent is the cornerstone of protecting the rights, safety, welfare and confidentiality of the Subjects.

If there are flaws in the Informed Consent process, this puts the Subject's safety as well as the integrity of the data at risk.
